7 Brew Menu Categories at a Glance

7 Originals – These are the signature creations that helped put 7 Brew on the map. They're bold, rich, and usually on the sweeter, more indulgent side, often mixing espresso with flavored syrups, creams and toppings. Think of drinks like Blondie, Brunette, Smooth 7 or White Chocolate Mocha—perfect when you want something that feels like a treat, not just a plain coffee.

Classics – This category covers the familiar coffeehouse staples with a 7 Brew twist: lattes, mochas, cappuccinos, house coffee and Americanos. If you like a traditional coffee base but still want room to add flavors or tweak sweetness, Classics are your best friend. You can usually order them hot, iced or blended and choose the milk and flavor add-ins that match your taste.

Teas – A lighter, smoother option compared to coffee, but still with a gentle caffeine boost. 7 Brew serves both hot and iced teas with black or green tea bases, often combined with fruity flavor shots for refreshing combinations. They're ideal when you're craving something sippable and refreshing that isn't as strong as espresso.

Lemonades – Bright, tangy and seriously thirst-quenching. These drinks are built on a classic lemonade base with different fruity flavors layered in, like strawberry or peach. Most are caffeine-free, making them a great choice for kids, late-night sips or anyone skipping caffeine but still wanting a fun drink.

7 Energy – This category is all about cold, vibrant energy drinks without espresso. Flavors like Firecracker or other colorful energy mixes are usually fruity and zesty, and you can adjust how strong you want your energy level by changing the number of shots. Perfect when you want a pick-me-up that feels more like a fun energy soda than a coffee.

7 Fizz – These are sparkling, soda-style drinks built on carbonated bases with flavored syrups and add-ins. They're typically caffeine-free and focus more on flavor, color and fizz. Kids, teens and anyone who loves fun, fizzy drinks usually gravitate toward this section—especially during warmer months.

Shakes – Dessert in a cup. 7 Brew shakes are thick, creamy and fully customizable with flavors, drizzle, whipped cream and toppings. They don't rely on coffee or tea, so they're a go-to treat for all ages when you're in the mood for something sweet and indulgent.

Smoothies – Fruit-forward blends that are smooth, velvety and refreshing. You'll find flavors like strawberry, mango, wild berry or strawberry-banana, and many locations offer dairy and non-dairy options. They're perfect for anyone who wants a fruity, caffeine-free option that still feels satisfying and fun.

Typical Price Ranges by Category (General Overview)

Exact prices can vary by location and size, but most 7 Brew drinks fall into these general bands:

- 7 Originals: Typically in the mid-to-higher range because of espresso shots, flavors and toppings.
- Classics: Usually more affordable than signature drinks, especially simple coffees and Americanos.
- Teas & Lemonades: Often mid-range, with prices increasing slightly for larger sizes or extra flavor shots.
- 7 Energy & 7 Fizz: Priced similarly to specialty cold drinks, especially when customized or ordered in larger cups.
- Shakes & Smoothies: Among the more premium items thanks to their thicker textures and dessert-style recipes.

How to Customize Your 7 Brew Order

One of the biggest advantages of ordering from 7 Brew is how flexible the drinks are. Here are a few simple ways to customize your order so it matches your mood and preferences:

- Choose your base: Decide if you want coffee, tea, energy, fizz, lemonade, a shake or a smoothie.

- Adjust sweetness: Ask for less sweet, extra sweet, sugar-free syrup (if available) or fewer flavor pumps.
- Pick your milk: Many drinks can be made with whole, skim, almond, oat or other available milk options.
- Add toppings: Whipped cream, drizzles, sprinkles or extra flavor can turn a simple drink into a treat.
- Pick a style: For many drinks you can choose hot, iced or blended, depending on the weather and your mood.

Seasonal & Trending Drinks

Beyond the core menu, 7 Brew regularly rotates limited-time and seasonal drinks. These can include holiday-inspired coffees, special lemonades, unique energy flavors and themed creations that only appear for a short period.

If you're visiting during a busy season or holiday, it's always worth asking your barista what's new or checking the current features. Seasonal drinks are an easy way to explore flavors you won't always find on the standard menu and can quickly become your new favorites.

Quick Tips for Choosing the Right Drink

- Want strong caffeine? Start with Originals, Classics or certain energy drinks.
- Want something light? Go for teas, lemonades or smoothies.
- Ordering for kids? Stick with Fizz, lemonades, shakes or smoothies that are caffeine-free.
- Craving dessert in a cup? Choose shakes or sweeter Originals with whipped cream and drizzle.
- Need to stay lighter on sugar? Ask for sugar-free options, fewer pumps of syrup or milk alternatives, if available.
